## Religious Institution Property Endorsement

- (1) Begins with the date of direct physical loss or damage caused by or resulting from any Covered Cause of Loss; and
- (2) Ends on the earliest of the following dates:

- (a) The date you restore your business "operations" to the condition that would have existed if no direct physical loss or damage occurred; or

- (b) 60 days after the date when property should be repaired, rebuilt or replaced with reasonable speed and similar quality. But if you do not plan to resume "operations", this additional 60 days does not apply, and the "period of restoration" will end on the date when the property should be repaired, rebuilt or replaced with reasonable speed and similar quality; or

- (c) 365 days after the date of direct physical loss or damage.

If the direct physical loss or damage is to a building being built or altered at the premises of a religious institution to which this endorsement applies and such loss or damage delays the start of "operations", the "period of restoration" will begin on the date "operations" would have begun if the direct loss or damage had not occurred.

b. "Period of restoration" does not include any increased period required due to the enforcement of any law that:

- (1) Regulates the construction, use or repair or requires the tearing down of any property; or
- (2) Requires any Insured or others to test for, monitor, clean up, remove, contain, treat, detoxify or neutralize, or in any way respond to or assess the effects of "pollutants".

c. The expiration date of this policy will not cut short the "period of restoration".

### G. Loss of Religious Institution Income

The following is added to the Coverage Extensions:

1. The insurance provided by this Coverage Form is extended to apply to:

a. The **actual** loss of "business income" you sustain due to the necessary suspension of your "operations" during the "period of restoration". The suspension must be caused by direct physical loss of or damage to the property described below:

- (1) Property at the premises of a religious institution to which this endorsement applies.
- (2) Contingent property, meaning property that is located elsewhere, is operated by others and:

- a) Attracts religious institution members or potential members to the area; or

- b) Is located at premises where your religious institution is permitted to solicit donations and contributions.

However, contingent property does not include power or communication transmission lines.

(3) Property at any location you acquire.

However, insurance under this Extension for newly acquired property will end:

- (a) 180 days after the date you acquire the property;

- (b) When this policy expires; or

- (c) When you report values to us;

whichever occurs first. We will charge you additional premium for values reported from the date you acquire the property.

b. The actual loss of "business income" you sustain caused by action of civil authority that prohibits access to the premises of a religious institution to which this endorsement applies, due to direct physical loss of or damage to other nearby property. This coverage will apply for a period of up to 30 days from the date of that action.

Insurance under this Extension applies only if loss or damage to the property described above is caused by a Covered Cause of Loss. The Special Exclusions in the applicable Causes of Loss Form that apply to the Business Income (and Extra Expense) Coverage Form, Business Income (without Extra Expense) Coverage Form or Extra Expense Coverage Form also apply to this Extension.

The most we will pay for loss of "business income" in any one occurrence under this Extension is \$10,000. No deductible applies to this Extension.

2. We will determine the amount of loss under this Extension as follows:

a. The amount of "business income" loss will be determined based on:

- (1) The Net Income of the religious institution before the direct physical loss or damage occurred.

- (2) The likely Net Income of the religious institution if no loss or damage occurred.

- (3) The operating expenses, including payroll expenses, necessary to resume "operations" with the same quality of service that existed just before the direct physical loss or damage.

- (4) All necessary expenses that reduce the "business income" loss that otherwise would have been incurred, but only to the extent that the loss is reduced; and

- (5) Other relevant sources of information, including:
  - (a) Your financial records and accounting procedures;

## Religious Institution Property Endorsement

- (b) Bills, invoices and other vouchers; and
    - (c) Deeds, liens or contracts.
  - b. You must resume all or part of your “operations” as quickly as possible. If you fail to do so, we will reduce the amount of your “business income” loss to the extent you can resume your “operations”, in whole or in part, by using damaged or undamaged property at your premises or elsewhere.
3. Definitions
- a. **“Business Income” means the:**
    - (1) Net Income of the religious institution (Net Profit or Loss before income taxes) that would have been earned or incurred; and
    - (2) Continuing normal operating expenses. Continuing normal operating expenses are expenses that:
      - (a) Would have been covered by the income of the religious institution before the loss; and
      - (b) Are required so that the religious institution can restore “operations” to the condition that would have existed had not loss occurred.
  - b. The definition of “period of restoration” in the Coverage Form to which this endorsement is attached, does not apply to this Extension.

**“Period of Restoration”**, as used in this Extension, means the period of time that:

- (1) Begins with the date of direct physical loss or damage caused by or resulting from any Covered Cause of Loss; and
- (2) Ends on the earliest of the following dates:
  - (a) The date you restore your business “operations” to the condition that would have existed if no direct physical loss or damage occurred; or
  - (b) 60 days after the date when property should be repaired, rebuilt or replaced with reasonable speed and similar quality. But if you do not plan to resume “operations”, this additional 60 days does not apply, and the “period of restoration” will end on the date when the property should be repaired, rebuilt or replaced with reasonable speed and similar quality; or
  - (c) 365 days after the date of direct physical loss or damage.

If the direct physical loss or damage is to a building being built or altered at the premises of a religious institution to which this endorsement applies and such loss or damage delays the start of “operations”, the “period of restoration” will begin on the date “operations” would have begun if the direct loss or damage had not occurred.

**“Period of restoration”** does not include any increased period required due to the enforcement of any law that:

- (1) Regulates the construction, use or repair or requires the tearing down of any property; or
- (2) Requires any Insured or others to test for, monitor, clean up, remove, contain, treat, detoxify or neutralize, or in any way respond to or assess the effects of “pollutants”.

The expiration date of this policy will not cut short the “period of restoration”.
